

Pallet Nailing Machines Adopt Imported from Industrial Plc (programmable Processor) + Industrial Control Computer

Specifications :

Detail Introduction :

Pallet nailing machines used to nail the wood bars and block feet together It adopt imported from industrial PLC (programmable processor) + industrial control computer, with professional development of production management software, highly efficient and stable operation.

No.	Item	Specification
1	Working Mode	Automatic feeding ,automatic nail stacking
2	Operation mode	Touch screen control
3	Voltage and power	380V three-phase 1.5kw Servo motor
4	Air pressure	0.8Mpa
5	Tank size	0.2 cubic
6	Nail gun speed	7 nail /second.
7	Production efficiency	3 tray /min
8	Weight	2000kgs
9	Dimension	Host machine 2000* 2800* 2600mm Stacking 2600* 1900* 1600
